

KaushalAI: Official SIH Demo Script (90-100s)

[Visual: Start on the KaushalAI Landing Page]

Voiceover: Welcome to KaushalAI, the unified digital ecosystem designed to transform capacity building for cooperatives across India. Our mission is simple: to make high-quality cooperative training accessible, verifiable, and directly linked to employment.

[Visual: Click 'Login' and select the 'Trainee' role]

Voiceover: Let's start with the Trainee experience. Through our multilingual Learning Management System, trainees can seamlessly register for online programmes. The dashboard tracks their progress in real-time, delivering interactive e-learning modules exactly when they need them.

[Visual: Scroll down to the AI Career Guidance Chatbot on the Trainee Dashboard, Click 'What am I lacking']

Voiceover: But we don't just stop at training. Our built-in AI Career Counselor analyzes the trainee's skill gaps and provides personalized roadmaps to make them job-ready.

[Visual: Switch to 'Kiosk Worker' Role -> Click Camera Check-In to show face scan]

Voiceover: For physical training centres, we've engineered a Smart Kiosk Operator portal. Even in areas with zero internet connectivity, this edge-architecture handles digital attendance via Face Recognition and QR codes, seamlessly syncing data back to the server once online.

[Visual: Switch to 'Recruiter' Role -> Candidate Matching]

Voiceover: Once a trainee completes a module, they receive a digitally verifiable certificate. Employers and recruiters can then access their dedicated dashboard to find verified, skill-matched candidates instantly, bridging the gap between education and employment.

[Visual: Switch to 'Admin' Role -> Add a new Programme and go to Institutes, Hostels & Logistics tab]

Voiceover: Finally, for the NCCT and Ministry administrators, our Centralized ERP provides a bird's-eye view of the entire nation. From monitoring live attendance to managing timetables, institute capacities, and hostel logistics, everything is tracked in one secure database.

[Visual: Zoom out / pan over the Admin charts]

Voiceover: KaushalAI isn't just a portal; it's an end-to-end digital infrastructure ready to empower the cooperative sector of tomorrow. Thank you.
